Topics Covered

- Variables
- Data Types
- Operators
- Functions
- Arrays
- Objects
- Loops
- DOM Manipulation
- Events
- Form Validation
- Local Storage
- ES6 Features

Project

- Student Registration System
-

Module 4: Advanced JavaScript

Duration: 4 Weeks

Topics Covered

- Fetch API
- JSON
- Async & Await
- Error Handling
- Modules
- Object-Oriented Programming
- API Integration

Project

- Weather App
 - Movie Search App
-

Module 5: Backend Development

Duration: 4 Weeks

Topics Covered

- Node.js
- Express.js
- REST APIs
- MySQL
- Authentication
- CRUD Operations

Project

- Student Management System
-

Module 6: Career Preparation

Duration: 4 Weeks

Topics Covered

- CV Writing
- GitHub Portfolio
- LinkedIn Optimization
- Technical Interviews
- Freelancing
- Remote Jobs
- Building Professional Projects

Capstone Project

Students will build and deploy a complete full-stack web application.

Tools You'll Learn

- HTML5
- CSS3
- JavaScript (ES6+)
- Git
- GitHub
- VS Code
- Node.js
- Express.js
- MySQL
- Postman

- Figma
-

What You'll Build

- Portfolio Website
 - Responsive Landing Page
 - Student Registration Portal
 - Calculator App
 - Weather Application
 - Movie Search App
 - Task Management App
 - Authentication System
 - Full-Stack Web Application
-

Upon Completion

Students will be able to:

- Build responsive websites from scratch.
 - Develop interactive web applications using JavaScript.
 - Create REST APIs with Node.js and Express.
 - Design and manage relational databases with MySQL.
 - Deploy web applications online.
 - Collaborate using Git and GitHub.
 - Prepare for technical interviews and entry-level software engineering roles.
-

Career Opportunities

Graduates can pursue roles such as:

- Frontend Web Developer

- Backend Developer
 - Full-Stack Developer
 - JavaScript Developer
 - Web Designer
 - Technical Support Engineer
 - Software Engineer (Entry Level)
 - Freelance Web Developer
-

Why Choose G'news Technologies?

- Project-Based Learning
- Industry-Experienced Instructors
- Hands-On Practical Sessions
- Real-World Projects
- Small Class Sizes
- Career Mentorship
- Job Readiness Training
- Certificate of Completion
